Division Description

The goal of the Commission on Aging is to improve the quality of life for older Idahoans by assisting communities in the planning, development, and implementation of in-home and community-based services; by serving as a visible advocate for the aging; and by reducing the number of elderly Idahoans placed in institutional, long-term settings. Grants are issued to area agencies in each of the state's six regions, as designated by the Commission on Aging. The area agencies either deliver the service directly or enter into contracts with senior citizen organizations and other service providers.

1. Alzheimer's Demonstration Grant

Spending authority is requested for a grant received from the U.S. Department of Health and Human Services to develop a "Stand By You" program for seniors with Alzheimer's disease. This disease mainly strikes older members of society, robbing them of their memory and creating many difficulties - financial, emotional, and health-wise for them and the family members who care for them. This three-year demonstration grant will develop programs to provide single point access to resources, training, counseling, and respite care through a network of non-profit partners and volunteers. Most of the match required will be provided by two subgrantee Area Agencies and local service providers at the rate of 25% the first year, 35% the second, and 45% in the third year. Predominately, the match source is volunteer time through the faith-based and non-profit providers. Of the spending authority requested, \$80,000 is expected to be carried forward due to the late start of this project in the current fiscal year.
